

ASSET LIMITED, INCOME CONSTRAINED, EMPLOYED

On many levels, New York is an affluent state – one with high median incomes, quality schools, and prosperous corporations. But look a little more closely at almost any New York community and you will find that within this affluence is a growing number of people who are barely getting by.

The United Way ALICE Project is more than an in-depth study. It is a multi-state grassroots movement that ignites a dialogue about the financial hardship of all people who earn less than the true cost of living. ALICE is critical to the fabric of our community and includes health aides, security guards, teaching assistants and other professionals who struggle to support their families.

REASONS WHY ALICE EXISTS

High Cost of Living

The household survival budget does not allow for any savings, leaving a household vulnerable to unexpected expenses. Affording only a very modest living in each community, this budget is still significantly more than the U.S. poverty level of \$11,670 for a single adult and \$23,850 for a family of four.

Lack of High-Paying Jobs

More than half of all jobs in New York pay less than \$20/hour (or \$40,000/year if full-time) which is about two-thirds of the Household Survival Budget for a family of four.

ALICE families face a variety of challenges: low-wage jobs located far from their homes (with the attendant rise in commuting costs); financial barriers that limit access to lowcost community banking services; and having few or no assets to cushion the cost of an unexpected health emergency or caregiving need.

ALICE NEEDS YOUR HELP

We all have a vested interest in improving conditions for ALICE. When ALICE can't afford the basics, the costs are high both for these families and for the wider community.
