UNITED WAY Long Island | Support Project Warmth | Signature Supporter nationalgrid Foundation

Since 1995, Project Warmth has made a difference in the lives of over 40,000 families, providing more than just heat. With 86% of every dollar going to those in need, United Way has provided hope. Behind every number is a unique story of resilience and community support.

"I never imagined I would need help, but life can change quickly. Project Warmth was there when I needed it most."

"Project Warmth came through when I didn't know where else to turn. Because of this support, my family was able to stay warm and safe during the winter."

"Thanks to Project Warmth, I was able to keep my home warm during a very difficult time. I can't thank them enough for their kindness and support."

Project Warmth is a safety net for financially struggling individuals and families who are unable to pay their energy bill. Many working families are not earning enough to maintain self-sufficiency and seniors on fixed incomes have a hard time making ends meet. If a crisis strikes any of these households, they may be forced to make hard choices between staying warm and the vital care they need.

2·1·1 Get Connected. Get Help.™

If you or someone you know needs energy assistance, please contact 2-1-1 or visit 211LongIsland.org

Project Warmth depends on the generosity of our community. Together, we can help our most vulnerable neighbors.
Please give today. www.unitedwayli.org/givepw

CHARITY NAVIGATOR ★★★★ Four Star Charity

Platinum Transparency 2026 Candid.

33%

One out of three households on Long Island don't earn enough to heat their homes during the winter.

40%

of participating households required emergency assistance because of a medical illness.

20%

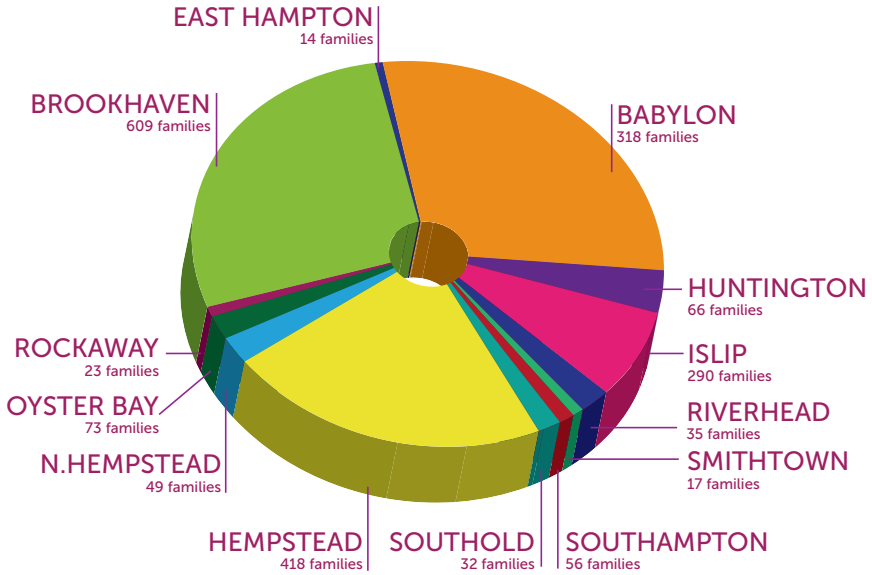

of participating families needed help due to life's unexpected emergencies.

80%

of participating families had vulnerable people with a disability.
